Want to give your look a little edge? Just add glasses

HOTTEST  
SHAPE FOR  
FALL!

**H**ollywood is teeming with sexy librarian types, and the frames they're sporting these days are anything but meek. "People used to want their glasses to disappear, but right now it's the opposite: They're going for eyewear that really makes a statement," says Jeff Press, a designer at Morgenthal Frederics. Luckily, there's no need to choose just one pair. "Women should have a wardrobe that fits all occasions," he says. "Your face is the first thing people see, and eyeglasses are the ultimate accessory."
